## **54XX/ET2000 Reset to Factory Default Procedure**

Updated 10-17-01

### ***TO Reset the Terminal to Factory Default (no display & no printer) settings:***

1. Sign off and power off the terminal logic (base) unit.
2. While powering on the logic unit simultaneously press 4 keys  
CLI 122 or 102 Keyboard = RESET + TAB + DELETE + F12  
Any PC Keyboard = LEFT CTRL + TAB + DELETE + F12
3. You may have to repeat this procedure several times or press all 4 keys up and down while powering On.  
You will know you are successful if you see the following screen:
